EXPERIENCE

Quantitative Research Project - Social Media Alpha

September 2026 — May 2027

Candriam

Paris, France

- ENSAE Quantitative Finance project: testing whether social-media activity (attention, sentiment, engagement) predicts earnings surprises and returns beyond market and analyst signals.
- Building a point-in-time pipeline mapping firms to their social accounts, from simple NLP benchmarks to richer models.
- Backtesting candidate factors out-of-sample, net of transaction costs, with look-ahead and survivorship bias controls.

Trainee Researcher - Sampling Methods for McKean-Vlasov Equations

May 2026 — September 2026

Laboratoire LAMA

Paris, France

- Designed a two-scale interacting particle method for McKean-Vlasov SDEs that explores every equilibrium despite metastability, with numerical analysis of convergence in particle number and timescale separation, extended to Gaussian interactions.
- *A two-scale approach for sampling local free energy minimisers*, arXiv:2609.36195, 2026.

Data Scientist Intern

June 2025 — September 2025

BNP Paribas RISK CIB

Paris, France

- Development and deployment of RAG tools for Operational Risk Officers in the EU and APAC regions, including embedding model selection, top-k retrieval tuning and LLM benchmarking.
- Design and experimentation of evaluation methods to measure model performance in risk detection.

Mathematics Oral Examiner (Khôlleur)

September 2024 — June 2025

Lycée Claude Fauriel

Saint-Étienne, France

EDUCATION

ENSAE Paris, Institut Polytechnique de Paris

2026 — 2027

Quantitative Finance, Algorithmic trading, HFT, ML for PM and trading, Financial Econometrics

University of Vienna, Academic exchange

2025 — 2026

Measure, Stochastic Processes, Probability, PDEs, Lie Groups, Brownian Motion, NLP

Ingénieur Civil des Mines, École des Mines de Saint-Étienne

2024 — 2027

Quantum Physics, Algorithmics, Graph Theory, Signal Processing, Statistics, Programming

GPA : 4.33 (in Mathematics and Computer Sciences)

Lycée Jacques Decour, MPSI - MP preparatory classes

2022 — 2024

Level : Admission to Centrale and Mines-Ponts

VOLUNTEERING

Teacher in prison

September 2024 — June 2025

Centre pénitentiaire de Saint-Étienne La Talaudière

Saint-Étienne, France

HOBBIES

Sport

Tennis, Padel (Top 10k France), Badminton, Football

Mathematics

Education for students, especially in Bachelor or Preparatory Classes
